By the Associated Press.  
BOSTON, Nov. 24.—Declaring "It  
isn't worth coming from so far if I  
don't say all I think," Georges Clemenceau  
in a speech here today de-  
fended himself from charges of mili-  
tarism hurled yesterday on the floor  
of the Senate at Washington. Ad-  
mitting that he had favored all pre-  
paredness programs for the last 50  
years, he declared:  
"Our 'militarism' saved England,  
and the world."

Denying he was seeking to bring  
America into international diffi-  
culties, M. Clemenceau said:  
"Yesterday I heard 'vive la France'  
—let France live. That's all I came  
to Boston for. I don't need to  
speak."

By the Associated Press.  
BOSTON, Nov. 24.—Former Pre-  
mier Clemenceau lashed back at his  
Senate critics today in his first  
American interview granted to the  
Associated Press, replying particu-  
larly to the criticisms of Senators  
Hitchcock and Borah.

"Senator Hitchcock calls me a  
militarist," Clemenceau said. "Well,  
I am glad to tell Mr. Hitchcock he is  
in the Senate, owing to the vote, for  
only a few more days. When he is  
free, I dare him to go to France and  
learn the facts."

Answering Senator Hitchcock's  
demand that he explain why France  
insisted on using black troops in her  
army of occupation, the "Tiger" de-  
clared that Hitchcock had been mis-  
led by German propaganda, and that  
today there was not a single black  
soldier in German territory.

## DR. GEORGE STILL, OSTEOPATH, KILLS SELF BY ACCIDENT

**President of School at Kirks-  
ville, Mo., Drops Auto-  
matic Pistol, Causing It to  
Be Discharged.**

## WAS EXHIBITING WEAPON TO FRIENDS

**Accident Occurs Shortly  
After Most of Guests at  
Party in His Home Had  
Departed.**

Special to the Post-Dispatch.  
KIRKSVILLE, Mo., Nov. 24.—Dr.  
George A. Still, president of the  
American School of Osteopathy at  
Kirkville, Mo., was accidentally shot and  
killed at his home last night when  
showing an automatic pistol to  
friends.

The accident occurred about 10:30  
o'clock in the log "banquet" barn  
in the rear of his residence and only  
a few moments after the majority of  
the guests at a party, which he had  
given, had departed. Earlier in the  
evening, when dancing, he had run  
into a wall and broken the index  
finger of his right hand.

His Wife Was Present.  
Present at the time of the shoot-  
ing were his wife, one of the in-  
ternes of his school and two musi-  
cians. They were sitting before a  
fireplace when he took from his  
pocket an automatic pistol and  
showed it. He had just remarked  
that there were many thefts in the  
neighborhood, that he had 10 tur-  
keys in the lot of his Kirkville Tru-  
sty parties, and that he meant to  
protect his home, when the pistol  
fired.

In attempting to pick up the pis-  
tol from between his feet  
he was discharged, and the  
bullet entered his chest, just below  
the armpit, and passed through the  
lung, the heart, and the liver, and  
out of his back, but Dr.  
Still was found to have been killed  
almost instantly. The bullet had en-  
tered his left cheek and ranged  
upward.

## Leader Among Osteopaths.

Dr. Still was 41 years old. He was  
born at Eudora, Kan., and moved  
at an early age with his parents to  
Kirkville. He attended the public  
schools, and was graduated from  
College and was graduated from the  
Rush medical department of North-  
western University in 1904. He was  
graduated from the American School  
of Osteopathy in 1906. He received  
a degree of bachelor of science from  
Drake University. Dr. Still also had  
traveled and studied in Berlin  
and Vienna. He was nationally  
known as a leader among osteopa-  
ths.

He became an instructor in sur-  
gery and chief surgeon in the Ameri-  
can School of Osteopathy, and in  
1907, surgeon-in-chief of the school  
hospital. He had been president of  
the American Osteopathic Association  
since 1917.

He leaves his widow, Mrs. Aldella  
Dockery Still, former president of  
the Missouri Federation of Women's  
Clubs, his parents, Dr. S. A. Still and  
Dr. Ella Still, of the American School  
of Osteopathy, and a sister,  
Mrs. Guy Brunk. An inquest prob-  
ably will be held.

Dr. A. T. Still, founder of the  
osteopathic school, died at Kirks-  
ville, Dec. 12, 1917. He, with the co-  
operation of his sons, had founded  
the American School of Osteopathy  
in 1892. Dr. Still was a great-  
nephew of A. T. Still.

All schools in Kirkville were  
closed today out of respect for Dr.  
Still, including the Northeast Mis-  
souri State Teachers' College.  
Funeral services will be held at  
2:30 o'clock Sunday afternoon at the  
Kirkville Christian Church.

## BALKING ELEPHANT RECLINES ON STREET, STOPPING TRAFFIC

You can lead an elephant to a  
stalled truck, but you can't make  
him push it. This was proved yester-  
day afternoon, when "Big Ben," a  
big elephant appearing at a local  
theater, balked at his keeper's in-  
sistence that he push a stalled motor  
truck along Olive street, just west  
of Grand boulevard.

"Big Ben" was on his way to his quar-  
ter after the afternoon performance.  
He objected strenuously to the re-  
quest that, after butting the heavily  
loaded truck a few times with his  
head to show he could move it, he  
decided to lie down, and his pres-  
ence blocked traffic for several  
minutes as he reclined across both  
car tracks.

His regular trainer was called  
and, at his command, "Big Ben" got  
up and was allowed to continue his way  
to his stall near the theater.

## GOVERNMENT SUES FOR \$20,000,000 IN CAMP FRAUD CASES

**Four Actions Filed in Effort  
to Recover Money Spent  
on Cantonment Construc-  
tion Contracts.**

## FUNSTON AMONG FOUR CAMPS NAMED

**Other Actions, Bringing  
Total to \$75,000,000, and  
'Criminal Prosecutions Ex-  
pected to Follow.**

By the Associated Press.  
WASHINGTON, Nov. 24.—Legal  
action to recover more than \$20-  
000,000 alleged to have been ob-  
tained fraudulently from the Gov-  
ernment in the construction of four  
army cantonments during the war was  
instituted today by Attorney-  
General Daugherty as the first formal  
step in a far-reaching prosecu-  
tion of those who held contracts for  
the building of war camps.

The four suits begun today were  
filed simultaneously in United States  
District Courts in four states and in-  
volve charges of fraud in connection  
with the construction of Camp Up-  
ton at 'Yap Link,' New York; Camp  
Jackson, at Columbia, S. C.; Camp  
Sherman, at Chillicothe, O., and  
Camp Funston, near Ft. Riley,  
Kan. Other civil actions and possi-  
bly criminal prosecutions are to  
follow. It was said at the Depart-  
ment of Justice, involving a total  
of more than \$75,000,000 and reach-  
ing into virtually every part of the  
country.

"Prime Contractors" Defendants.  
In each of the four cases the suit  
was filed against the "prime con-  
tractors," who were responsible for the  
construction of the camps. The four  
defendants are: The Thompson-Starrett Co.,  
builders of Camp Upton, \$1,000,000;  
the Hardaway Construction Co.,  
builders of Camp Jackson, \$5,000,000;  
Camp Sherman, \$5,000,000, and the  
George A. Fuller Co., builders of  
Camp Funston, \$1,000,000.

It was indicated that similar ac-  
tions would be brought later against  
minor contracting firms who helped  
in the construction of the four  
camps, and that should any criminal  
action be sought, the evidence  
would be placed before the special  
war frauds grand jury now in ses-  
sion in District of Columbia.

In the case of Camp Jackson, the  
Government's previous experi-  
ence in the suit against the Hardaway  
company is more than half the total  
cost of the camp, while in the other  
three cases the amounts asked for  
are close to 40 per cent of the whole  
construction outlay. Camp Jackson  
cost the Government \$12,710,730;  
Camp Upton, \$12,370,830; Camp  
Sherman, \$12,247,620, and Camp  
Funston, \$1,715,520.

Case Against Bentley Company.  
The complaint in the Camp Sher-  
man case, differing only in minor  
details from those filed in the other  
three suits, charges that the  
Bentley company misrepresented to  
the Government its previous experi-  
ence in construction work and that  
despite the unusual trust imposed  
by the Government during the war  
emergency the company "did know-  
ingly, recklessly, illegally and fraud-  
ulently violate and abuse such con-  
fidence and trust and breach said  
contract."

It is charged, further, that the  
Government eventually was com-  
pelled to employ another concern to  
complete the work of construction  
so that the Bentley company "not  
only caused great damage and loss  
to the plaintiff through its said  
wasteful, inefficient and fraudulent  
acts and conduct, but in addition  
thereby greatly delayed and am-  
barrassed the plaintiff in making  
preparations for the war into which  
it had entered."

The specifications included these  
charges against the company:  
That it stopped construction work  
without having properly completed  
it, causing great loss.  
That it "sold to and purchased  
and resold to plaintiff at a profit to  
defendant, large quantities of ma-  
terials."  
That it presented for payment "il-  
legal and unwarranted claims and  
vouchers."  
That it "ordered and permitted  
large amounts of useless and unsat-  
isfactory work."

Fines Up 100 Per Cent in Germany.  
By the Associated Press.  
BERLIN, Nov. 24.—The freight  
tariff on German railways will be in-  
creased by 150 per cent, and pas-  
senger fares by 100 per cent, dating  
from Dec. 1.

## INDICTMENTS FOR WOMAN CASHIER IN \$58,000 SHORTAGE

**Grand Jury Charges Miss  
Nora B. Shantz, 29, With  
Larceny and Embezze-  
ment of Funds.**

Two indictments charging grand  
larceny and embezzlement were  
returned by the grand jury today  
against Miss Nora B. Shantz, 29  
years old, former bookkeeper for  
the Knickerbocker Clothing Co.,  
1210 Washington avenue, who has  
been accused by company officers of  
being \$58,000 short in her accounts.

The true bills were returned at a  
special session of the grand jury,  
held this morning to complete a  
hearing on evidence submitted yester-  
day afternoon. The indictments  
were based on two company checks,  
which Miss Shantz is alleged to have  
raised, but the amounts of the  
checks, and to whom payable, were  
not disclosed.

The company books and approxi-  
mately 500 checks involved in the  
alleged shortage were placed before  
the grand jury, in connection with  
the testimony of Albert F. Epstein,  
treasurer of the company, who made  
the charges against Miss Shantz.

Miss Shantz, who has been at lib-  
erty under \$2500 bond since her ar-  
rest Nov. 16, has denied the charges  
against her and made the counter  
accusation that Epstein has main-  
tained two sets of books on company  
accounts. She asserted he frequently  
had ordered her to raise the amounts  
on checks issued by the company for  
payroll and other accounts.

## 14 FEEBLE-MINDED PERSONS FOUND AT WORK IN MINE

Former Inmates of Ohio Institution Taken in Raid on Camp Across Border in Pennsylvania.

CASE UNDER INQUIRY SINCE LAST AUGUST

Managers of Plant Say They Came There Voluntarily and Were Paid Regular Wages for Their Work.

By the Associated Press. COLUMBUS, O., Nov. 24.—Possibility that a fight in Ohio courts might provide a sequel to the spectacular "rescue" of 14 former inmates of the Ohio Institution for Feeble-Minded, from the bunkhouse of a strip mine near Turtle Creek, Pa., early yesterday, is being considered here today.

Declaring that the former inmates had been inveigled away from the institution and put to work at the mine for little pay and under unsatisfactory conditions, representatives of the Ohio Welfare Department, with Pennsylvania State police, went to the workings, bundled them into automobiles and whisked over the State line into Ohio before court action to detain them might be started.

No Active Resistance. While no active resistance to the coup was offered at the mine, the return of the 14 was followed by a statement at Pittsburgh by Frank J. Bents, manager of Bents Brothers, the Columbus firm which operates the workings, to the effect that he would seek recourse in Ohio courts. Bents announced that all had been "adjusted mentally and physically competent by reputable physicians," and that he had retained attorneys to take legal action in the case.

One of the men taken away from the mine, Bents declared, had been employed there for seven years, several others for four or five years and the remainder for seven or eight months. They all came voluntarily, he asserted, and were paid regular wages for the work they did. He denied that living conditions at the operations were bad. Director Macval of the State Department of Welfare last night might declare the incident closed so far as he was concerned. He would not prosecute the Bents Co., he said, because it was probable that it could not be proved that force was used to take the boys from Columbus. Statements of the workers, who, according to welfare department officials, ranged in age from 18 to 40, were to the effect that they had been induced to go to Turtle Creek by promises of high wages and "a good time."

Case Came to Light in August. The return of the 14 State wards to Columbus marks the conclusion of months of effort. It was said at the welfare department. The situation first was brought to light here last August and since that time negotiations with various branches of the Pennsylvania State Government have been carried on. After conferences with various agencies, cooperation of the Pennsylvania State police was secured. It was said, and the raid planned in order that long delays through court action might be avoided.

Leader of Raid on Mine Camp Tells of Conditions There.

By the Associated Press. PITTSBURGH, Pa., Nov. 24.—Fourteen men, said to rightfully belong on the State farm for the feeble minded at Orient, O., were removed from the strip mine of Bents Bros. at Turtle Creek, near here, yesterday by Pennsylvania State police, men and agents of the Ohio welfare department, hurried to Pittsburgh and taken on the first train to Columbus.

This action was taken over the protest of Frank J. Bents, general manager of the company, and without the knowledge of Sheriff Woodside of Allegheny County. Sgt. Creps, who commanded the detail of police, said: "Several days ago I went to the camp to ascertain just what the conditions were. J. Donovan and M. M. Hawk, of the Ohio welfare department, gave me full description of the miserable conditions. When I arrived there I found the 14 boys, all dirty, some dressed and some undressed, lying two abreast in double bunks. Sanitary conditions were terrible. The Bents brothers came out of a house nearby and vigorously protested.

"The boys seemed glad to get away. Some said they were paid \$3 a week—others declared they received \$5. A few officials, that on Saturday nights they received a dollar each and went to Turtle Creek, the neighboring village, for a 'big time.'"

"We drove from the camp to Pittsburgh, where we put the boys on the 4:45 P. M. Pennsylvania train for Columbus."

## Bank President, on Trial, and His Chief Counsel Entering Court

H. H. HOHENSCHILD. PATRICK H. CULLEN.

### BOOKKEEPER SAYS HE MADE FALSE ENTRIES TOTALING \$600,582

Continued From Page One.

effect, he said, was to show the deposits as being less than they actually were. He said the reports of 1920 and the year before were prepared under Meining's direction. He was questioned as to the tearing out of a leaf from the records, and said nothing was torn from his ledger. "Well," Cullen said, "a ledger was torn by Meining, to conceal the bank's affairs. He said the bank examiners couldn't find the items," Schneider asserted to this statement.

"Your report to the bank examiner showed less deposits than the bank actually had."

"Yes."

"And you submitted the same report to the stockholders' committee, to the directors and the president?"

"That was done to deceive."

"I don't know."

Denies Promise of Immunity.

"Meaning, you don't care? Have you ever been brought to account under the criminal laws for your acts? Ever received assurance of immunity?"

"No," was the answer to the last two questions.

Schneider was then questioned about Meining's request that he should go to New York, to take a cash deposit of about \$40,000 to the Harriman National Bank. He said "Mr. Schaffner" went, after he had declined to go. This was Jack Schaffner, of the Midwest Tire and Rubber Co., one of the concerns to which Cashier Meining is said to have made large advances of the bank's funds.

Schneider was asked how the books were "fixed" to conceal the withdrawal. He said Meining must have arranged this with the teller from whose cage he took the money—he was not sure which teller it was. He said he thought that Meining, at the time, was trying to negotiate a loan from the New York bank.

Schneider was asked whether he did not withdraw his own account Jan. 4, after Deputy Finance Commissioner Ross had appeared to investigate the bank's affairs. He said he had not done so, but that the president of a bowling league, of which he, Schneider, was treasurer, made a withdrawal on that day.

Asked About Interview.

He was then asked again as to his interview, in former Gov. Major's office, at 1:30 p. m. Jan. 5, with Hohenschild and Major, Judge W. H. Allen of the St. Louis Court of Appeals and Phil A. McDermott, directors now under indictment with Hohenschild. He was asked whether, after his statement as to the bank's affairs, anyone told him, at that time, to keep his mouth shut.

"As I was leaving the office," he said, "Phil McDermott, in the hearing of the others, said, 'Go back to work.'"

"Donovan and Hawk (the Ohio agents) showed me their warrants and we decided to raid the camp early yesterday morning. Traveling by automobile, we reached the camp at 2 o'clock. We found the 14 boys, all dirty, some dressed and some undressed, lying two abreast in double bunks. Sanitary conditions were terrible. The Bents brothers came out of a house nearby and vigorously protested.

"The boys seemed glad to get away. Some said they were paid \$3 a week—others declared they received \$5. A few officials, that on Saturday nights they received a dollar each and went to Turtle Creek, the neighboring village, for a 'big time.'"

"We drove from the camp to Pittsburgh, where we put the boys on the 4:45 P. M. Pennsylvania train for Columbus."

and Schneider said it was at 5 a. m. Jan. 6, after working all night, when Ross and others were questioning him in the directors' room. Cullen asked whether he collapsed or fainted at that time, and Schneider said he did not.

Kingston Testifies. The State then called Wilmer L. Kingston, head teller. He is 26 years old, and his youthful appearance caused comment, as the similar appearance of Schneider had done. Kingston said he was formerly stenographer in Hohenschild's architectural office, that he was in the Night and Day Bank's employ in 1915-16, sold accident insurance for two years and, in 1918, met Meining on the street and asked him for a job. Meining put him to work as paying and receiving teller, and in the spring of 1920 made him head teller. It was his duty to handle the cash item account, consisting of slips representing cash, and deposited by various tellers in lieu of cash. These were carried on the records as assets.

Kingston's Testimony. Kingston testified that cash items had been utilized in the bank since 1915, and that their use continued after he became head teller until the spring of 1920. He said that in 1921 he began to gather all cash items and hold them in his cage, as representing assets of the bank. Asked if he knew the signature of Meyer Katz, Kingston replied that he did. He was shown a cashier's check dated Dec. 12, 1921, for \$28,350. Kingston testified that this check originated with the exchange teller of the bank and was signed by Meining. He said that the money called for on the check was taken from the assets of the bank and a cash item slip was deposited in place of the check.

Other Checks Listed. Other checks for the account of Meyer Katz, which were replaced by cash items, were listed by Kingston as follows:

8-11-'21, \$16,500.  
12-13-'21, \$500.  
12-15-'21, \$500.  
12-23-'21, \$3,000.  
11-7-'21, \$3,000.  
12-7-'21, \$3,000.  
8-29-'21, \$10,500.  
11-8-'21, \$5,000.  
10-31-'21, \$10,000.  
10-24-'21, \$5,000.  
9-16-'21, \$5,000.  
10-12-'21, \$6,000.  
11-18-'21, \$5,000.

The total of these Katz "cash items," in the last five months of 1921, was \$75,300.

Other "Cash Items." Introduced by the Circuit Attorney, and identified by Kingston, were in the names of P. A. McDermott, Nov. 14, 1921, \$5,936.18, and John A. Hope, \$700.

From these sums, the amounts of cash items descended to amounts of a few dollars. One \$6 "cash item" was given by Kingston as having been put in place of a depositor, because a forged check for that amount, in his name, had been cashed. It appeared, from Kingston's testimony, that the "cash item" system was used in meetings, small and unexpected losses of the bank.

Called to Major's Office, He Says. Kingston said he was summoned to the office of former Gov. Major, counsel and director of the bank, at 3 p. m., Jan. 5, and that Hohenschild said to him: "It appears that Meining is short \$754,000. What do you know about it? I am told most of it went through your cage."

Kingston said he replied that he could account for only \$174,477.12 which had passed through his cage. This, he said, was the total Dec. 19, when he charged off the cash items account at Meining's direction.

Kingston said P. A. McDermott, Meining's employee, told him to go back to the bank and to say nothing to anyone, and to bring back his blotter, that McDermott told him to put the blotter in a safe deposit box, and that McDermott would get it at 6 p. m.

Cullen's cross-questioning of Schneider, which was in advance of any direct testimony by Schneider on the points covered in the cross-examination, had the effect of starting the trial from the beginning. Cullen started the cross-examination yesterday afternoon, as soon as Schneider had given formal testimony identifying some records, and his questions brought out points on which the prosecution relies, as well as points in the defense. Facts in support of the State's case, brought out in this cross-examination of Schneider, are the direct testimony of Donald W. Ross, Deputy Finance Commissioner, are:

That Schneider told President Hohenschild, at 1:30 p. m. Jan. 5 last, of the \$754,000 "cash items" representing the irregular withdrawal of the cashier, A. O. Meining. (It will be testified that a deposit was accepted after that time.)

That Ross tried, on Jan. 4 and 5, to get a statement of the bank's affairs, without success, and that at a meeting of bankers at Festus J. Wade's home, the night of Jan. 5,

he was told that Meining could not be found, and that "cash items" amounting to \$174,000 had been discovered.

Points Brought Out by Defense. The defense, in its own behalf brought out:

Schneider's admission that he falsified cash entries, at Meining's direction.

Some uncertainty as to just how Schneider told Hohenschild and the directors, in his verbal report at 1:30 p. m., whether his statement was definite or indefinite.

How Records of Bank Were Altered. Told on Witness Stand.

The records of the Night and Day Bank were altered to make it appear that the institution carried \$754,000 in cash when it did not, was related on the witness stand yesterday afternoon by Schneider, under cross-examination by the defense.

The witness said that he informed Hohenschild and the other indicted directors of this institution at 1:30 p. m. Jan. 5, more than five hours before the \$100 deposit of Harry Cook, manager of the Business Men's Gymnasium, was accepted at the bank. Cook is the complaining witness in the present trial, which is on one of 19 indictments pending against Hohenschild.

"Isn't it a fact that you merely told them, when they inquired if there was anything wrong at the bank, that the only thing you knew of was the cash item account?" asked Attorney Cullen. "You did not tell them that you had entered cash on your books when there was no cash in the bank corresponding with the entries, did you?"

Tells of Instructions. "All I know about that is, that when the various tellers forwarded items of cash on their blotters to me and there was no cash there, I would ask Cashier Meining what to do and he would tell me to enter the items as cash on my books," was Schneider's reply.

Schneider admitted under cross-examination his daily report, including the fictitious cash items, was the basis upon which a stockholders' committee formed its reports of the financial condition of the bank.

The directors wanted to know if there was anything wrong at the bank, and I said if there was it probably had to do with the cash item account."

The charge in the indictment on which Hohenschild is being tried specifies three features, that of knowing that the bank was insolvent; with that knowledge, knowingly and willfully assenting to acceptance of a deposit in the bank, and "stealing and carrying away" \$400, the amount deposited by Cook.

"It makes no difference," retorted Cullen. "This witness has been produced, and we have a right to cross-examine him."

## TIERNAN IS GRANTED DIVORCE; TESTIFIES WIFE STRUCK HIM

Custody of Two Children Awarded to Former Notre Dame Law Professor

SOUTH BEND, Ind., Nov. 24.—John P. Tiernan, who resigned recently as law professor at Notre Dame University, obtained a divorce from Mrs. Augusta Tiernan in Judge C. R. Montgomery's court yesterday on his cross bill. The custody of the two daughters, Mary and Irene, was given to Tiernan. The custody of the child "Billy," whose parentage was disputed and who, it was charged, in an unsuccessful criminal action was the son of Harry Ponin, was awarded to Mrs. Tiernan. Tiernan will take his two children to New York where he will open a law office.

Tiernan testified that Mrs. Tiernan told him that as a lawyer she respected him but that as a husband she did not love him. He also said she struck him at various times. Only the Judge, attorneys, court attaches and newspaper men were admitted to the hearing.

Examined on any phase of the case. We want to find out just what he told the directors that will support the State's contention that the directors knew of the bank's insolvency."

Worked at Bank Since 1916. In response to other questions from Cullen, Schneider said that he was 28 years old, and that he had worked at the bank under the direction of Meining since 1916.

"When did you start entering these bogus cash items on your books?"

"In 1920."

"And did you ever mention anything about it to any of the directors?"

"Not until Jan. 5 last."

"And then when you released the information suddenly like a bolt from a clear sky, did you tell the directors that you had been making false entries, or did you merely say to them that there were cash items amounting to \$754,000 on your books?"

"The directors wanted to know if there was anything wrong at the bank, and I said if there was it probably had to do with the cash item account."

The charge in the indictment on which Hohenschild is being tried specifies three features, that of knowing that the bank was insolvent; with that knowledge, knowingly and willfully assenting to acceptance of a deposit in the bank, and "stealing and carrying away" \$400, the amount deposited by Cook.

"It makes no difference," retorted Cullen. "This witness has been produced, and we have a right to cross-examine him."

Imprisonment in the penitentiary from two to five years.

## POLICE REQUESTED TO SEARCH FOR DOCTOR'S LOST MONKEY

Animal, Used in Experiments, Missing From Back Yard of Veterinary Surgeon's Home

The police today were requested to search for "Monk," a 2-year-old Java monkey, "14 inches tall and 18 inches long, of a reddish gray color," which has been missing since 1 p. m. yesterday, from the rear yard of the residence of Dr. Ladislav M. Otty of 5228 Vernon avenue.

Dr. Otty doesn't know whether it was stolen or ran away. But he wants it back and said he would give a reward for its return. He valued the monkey at \$100.

Dr. Otty said today that the monkey had been used in his experiments, but that it is not at this time inoculated with any germs which would render its escape dangerous to persons with whom it might come in contact. He said it is tame.

Woman's Body Found in Des Peres. The body of Mrs. Katherine Russell, 74 years old, a widow, was found in two feet of water in the River des Peres at a point 100 feet west of the Gravois avenue bridge today by her son, Thomas Russell, of 4353 Neosho avenue, and a mounted policeman. She had been missing since 2 p. m. yesterday from 4247 Rec avenue, where she lived. Mrs. Russell had been in poor health for months, and members of the family said they believe she ended her life.

where even the bulwarks of sand bags failed to keep out the hail of bullets; at the Four Courts, where the soldiers described it as their worst experience, and at Oriel House the headquarters of the crime investigation department.

Officially, no deaths are reported.

Childers Won British Distinguished Service Cross for Fighting German Submarine.

Erskine Childers, a Lieutenant commander in the Irish Republican Army and one of the right hand men of Eamonn de Valera, was placed on trial before a military tribunal in Dublin Nov. 17 on the charge that he had a pistol in his possession, when arrested at Wicklow by Free State forces on Nov. 10. The trial lasted two days. Childers, who was 52 years old, appealed through counsel for a writ of habeas corpus, which was denied yesterday by the Master of the Rolls. He then appealed to the Court of Appeals for Southern Ireland.

Childers was an ardent proponent of the Anglo-Irish treaty, later turned against it.

## MISSOURI YOUTH DIES AFTER BOXING ROUT

**NOT BLOW, CAUSED DEATH.**  
Special to the Post-Dispatch.  
**CARTHAGE, Mo., Nov. 24.**  
Charles Parsons, 18-year-old amateur boxer, who died following participation in a boxing exhibition here last night, died from a hemorrhage, due to overexertion and a diseased condition of the lungs rather than from any blow, physicians who performed an autopsy today announced. Johnnie Hughes of Picher, Ok., manager of the fight, said

Parsons was arrested last night, was released today pending action of the Coroner's jury. The father of Parsons today asked that Hughes not be prosecuted declaring "it was all in sport."

Parsons was a clerk in a drug store here. He had engaged in several boxing bouts here at various times.

The bout was stopped by Referee Joe Becker about 30 seconds before

The last round was finished. Becker said that he observed Parsons turn pale and realized that he was in no condition to finish the contest. Parsons was aided to his corner where first aid was administered.

Hughes walked over and offered his hand. Parsons accepted it and attempted to force a smile. A few moments later he was taken from the ring and collapsed on the way to

Three physicians worked with Parsons more than an hour and a pullmotor finally was used in an effort to revive him. Hughes, who, in order to reach Picher by street car

had hurriedly left the ring and changed his clothes, did not know of his opponent's death when he left here. Hughes was arrested in Picher early today as he alighted from the street car. According to James Steele, night marshal of Picher, Carthage officers requested that Hughes

be held.

## RUSSIANS AGAIN EAT CAVIAR

Delicacy Now on Sale Even in Fair

By the Associated Press.  
PETROGRAD, Nov. 1.—Russia this fall is enjoying the great caviar feast in many years. The revolution, famine and lack of transportation interfered greatly with the caviar industry, but it is once more being carried on as in former days, and the delicacy is on sale in many shops in city and village stores, even in the famine areas.

While in Paris, London and Berlin caviar continues to be a great luxury, here it is doled out to all comers for about a dollar, or its equivalent in bolshevik roubles, a pound for the freshest and best. Pressed caviar may be had for 50 cents a pound and even less, and is very popular with the workers.

## MERGING OF LINES COST \$11,536,385, U. R. BRIEF SAYS

The Amount Accrued to Brown Brothers of New York and Maryland Trust Company, It Says.

The United Railways has determined upon \$70,000,000 as the valuation figure it will endeavor to justify before the Missouri Public Service Commission.

As is known, rates of fare are established on a basis of a fair return upon a fixed valuation. The present fare in St. Louis is based upon a valuation of \$50,000,000 adopted by the commission pending its determination from physical inventory of the value of the company's property, a proceeding that has been in progress for more than three and one-half years.

The company's contention is disclosed in the following paragraph at the beginning of its attorney's briefs, filed with the commission today:

"The ultimate fact we shall endeavor to establish is that the property of this company devoted to the public use on Jan. 1, 1919, should be valued at \$70,000,000."

Adoption of this figure would entail the addition of capital expenditures of the company since Jan. 1, 1919, less property amortized in that time.

"Merger Cost \$11,536,385."

Some light is given in the brief upon the promotion costs of merging the various independent lines that existed in St. Louis prior to 1899 when the United Railways. The deduction of the brief is that this cost was approximately \$11,536,385, according to Brown Brothers of New York and the Maryland Trust Co. of Baltimore.

In return for this cost, the public owned, the brief declares, the right of universal transfer, a right that cost \$7,794,000 in 1920, or 7 1/2 per cent upon a capital of \$103,000,000.

Valuation Set in 1921.

At the conclusion of an inventory of the company property, engineers for the Public Service Commission reported in February, 1921, that, on the basis of average prices prevailing over a 13-year prewar period, the company's property useful in the public service could be reproduced for \$77,354,355, and that the property depreciated to represent its physical condition at the time had a value of \$34,285,581.

To make these figures comparable with the company's claim of \$70,000,000, it would be necessary to add certain intangibles, such as going value and promotion costs. In previous valuation figures, the Missouri Public Service Commission has added from 7.5 to 10.6 per cent. The city's brief in the valuation case has not yet been filed.

## SOLDAN HIGH SCHOOL INCIDENT DISCUSSED

Victor J. Miller and His Un-  
proved Charge Brought Up in  
Home Rule Debate.

Special to the Post-Dispatch.  
JEFFERSON CITY, Nov. 24.—  
Victor J. Miller, member of the St.  
Louis Police Board, and the Soldan  
High School incident entered into  
the discussion in the constitutional  
convention yesterday of police home  
rule for the larger cities of the State.

O. E. Munger of Piedmont, a foe  
of home rule, had just completed a  
speech against that principle when  
George H. Williams of Webster  
Groves, one of the supporters of  
the proposed plan, asked Munger:  
"If the charter of the city of St.  
Louis provided that the Police Com-  
missioner could be appointed by the  
Mayor and if the Mayor had ap-  
pointed Victor Miller, Police Com-  
missioner of St. Louis, don't you  
think that when he committed the  
outrage upon our young citizenship  
recently in St. Louis that 20,000, yes  
20,000 of our citizenship would have  
gone to the City Hall and demanded  
his removal?"

Munger: "The city would have  
disposed of him; civilization west of  
Grand avenue has gotten to be loved,  
appreciated and perpetuated and  
they would have done it; but his  
voice is silenced under conditions."

Williams: "The law gave no remedy  
and Miller was the only person  
the police brought to this convention  
to support their plan for pensions.  
He is still a member of the Police  
Board."

Munger: "That is the inefficiency  
of our Governor."

John B. Haymes of Buffalo: "I  
suppose the control of the grand  
juries and the court are under the  
control of officers elected in St.  
Louis, are they not?"

Munger: "They are now."

Haymes: "If Mr. Miller has com-  
mitted a crime against the citizens of  
St. Louis and I think he did."

Munger: "I do too."

Haymes: "Do you know any good  
reason why good citizens do not in-  
quire?"

Munger: "They might do it yet."

GERMAN CIVILIANS MAKE ATTACK

By the Associated Press.

BERLIN, Nov. 24.—British and  
French officers of the Inter-Allied  
Control Commission, who announced  
their intention to inspect a munici-

tions depot at Ingolstadt, Bavaria,  
were attacked yesterday on their ar-  
rival at the depot by a band of civil-

ians armed with clubs.  
A British officer was injured in  
the attack. No German soldiers were  
concerned in it.

**Speaks Highly of  
This Home Made  
Cough Remedy**

Says It Acts With Unusual Speed—  
Loosens the Mucus—Relieves the Ir-  
ritation and Stops the Cough.

Costs Next to Nothing—for a  
Big Supply.

Whenever anyone in my family catches  
cold and begins to cough and sneeze,  
and haw and breathe heavy, it doesn't  
take me many minutes to fix up a  
remedy that will drive away all such  
troubles in double quick time.

It's no secret—anyone can make a  
half pint of the finest cough medicine in  
the world for a trifling sum.

Get from any druggist one ounce of  
Parment (double strength)—is this add  
a little granulated sugar and enough  
water to make one half pint—that's all  
there is to it.

But now you've got a real medicine—  
mind you—the first spoonful you take  
acts directly on the membrane of the  
throat and nose, the tickling ceases at  
once, instantly—the inflammation be-  
gins to disappear—up comes the stub-  
born mucus and often in 24 hours every  
trace of the cough that frightened you  
is gone.

It's really remarkable how this home  
made remedy acts on the mucous mem-  
brane and that is one reason it is so  
helpful to thousands of croupy suf-  
fers.

By the Associated Press.  
LOS ANGELES, Cal., Nov. 24.—Trial for the action for divorce brought by Dr. Charles E. Burt, dentist, against Mrs. Grace K. Burt, former wife of W. R. Timken, bearings manufacturer, was begun here yesterday. Dr. Burt, who charges cruelty, told of their secret marriage in 1916 and their separation in 1920, after, he declared, Mrs. Burt had asked him to choose between her and his profession.

### TEAM OF RUNAWAY HORSES CAUSES WRECK OF BUILDING

**Collision Knocks Second Wagon Against Structure, Making Large Hole in Front Wall.**

A team of runaway horses wrecked a building at 718 North Sixteenth street at 5 p. m., yesterday. A team, attached to a wagon of the Tevis Transfer Co., 113 Pine street, became frightened while standing unattended at 1513 Morgan street and ran to the North Sixteenth street address, where the wagon collided with another wagon standing at the curb.

The second wagon, owned by James Lockett, a negro, of 724 North Sixteenth street, was knocked against the one-story brick building at 718 North Sixteenth street, occupied as a home by Henry Penix, a negro. A hole 19 feet high and six feet wide was made in the front wall, after which the building was condemned. Edward Randolph, 50, a negro, of 715 North Sixteenth street, was knocked down by the second wagon as he stood on the sidewalk, suffering numerous bruises.

### JURY FREES ROY TIPTON OF TOBACCO STEALING CHARGE

**Case Against John McTigue, Held for Same Theft, Will be Nolle Prossed.**

Roy Tipton, 18 years old, of 218 Hickory street, was acquitted on a charge of grand larceny by a jury in Judge Franklin Miller's court yesterday afternoon. A similar charge against John McTigue, 23, of 1133 South Sixth street, jointly charged with Tipton, will be nolle prossed today.

Tipton and McTigue were alleged to have driven off a truckload of tobacco and cigarettes belonging to the Dierker and Schaeperkoetter Cigar Co., 416 North Third street, from Twentieth and Eugenia streets on the afternoon of Mar. 28 last. The truck was found by police next day with the contents, valued at \$448, missing. Two negro women identified Tipton and McTigue, following their arrest several days later, as the men who drove away with the truck during the absence of the driver. Tipton produced witnesses who testified that he was in another part of the city at the time of the robbery.

By the Associated Press.  
RIGA, Nov. 24.—Mrs. Adele Parker Bennett, formerly a school teacher in Seattle, Wash., has been released from prison in Russia, according to word reaching Riga, after being arrested by agents of the Cheka and detained three days. Mrs. Bennett was taken from her hotel room at 2 o'clock in the morn-

ing, but the police agents refused to say why she was arrested. She was later questioned by political investigators. Mrs. Bennett has been in Russia more than a year with her husband, Kay Bennett, a hydraulic engineer in the employ of the Soviet Government and admittedly a member of the Communist party. "No political chairman would have dared to send that letter to our Kansas City Fire Department. Let us take the police out of politics and put them where other great American cities have them, hunting law violators and protecting life and property, instead of controlling elections. But it only can be done by this convention, for already I hear Democrats saying, 'Don't do this, for soon we will be back in power.'

**Nothing More Offensive.**  
 "But nothing is more offensive to me than the use of the police in politics. Let us take them out of politics by constitutional action."

Strong arguments in behalf of the proposal also were made by R. E. Culver of St. Joseph, George H. Williams of Webster Groves, Taylor, Andrew Scully and Fred H. Eschmann of St. Louis. Farris led the opposition, in which A. H. Harrison of Steelville, O. E. Munger of Piedmont, J. W. Alexander of Gallatin, Mrs. W. W. Martin of Fayette, Gos-

Letters signed "Democratic City Committee of St. Louis" were received by the Democratic delegates from St. Louis, urging opposition to home rule. Only three delegates paid any attention to the letters, Felix Mc-

Adams, James B. Quigley and Jay Elmer Fox, district delegates from parts of St. Louis dominated by the organization. Their attitude on home rule has cost the firemen's and policemen's pension section votes

among the rural delegates. Two or three of the latter, opposed to pausations on principle, had determined to vote for both as expédients, they said, but changed their minds in view of partizan opposition of three St. Louisans to home rule.

### Lobby Work Suspected.

Soon after the letter of the Democratic City Committee had arrived a Democratic attorney, long known as the political agent of large corporation interests, maker and break-

er of gubernatorial and Supreme Judge candidates and often actively interested in legislation, appeared here. He said that he had come for "nothing special," but he stayed a night and a day and it was widely whispered in lobbies of the conven-

Oren E. Munger of Piedmont, a Democratic lawyer, who has been a member of the convention for a few weeks as the appointed successor to J. B. Daniel, spoke first.

J. B. Daniel, who died, Wednesday made a bitter speech against home rule, in which he charged that "the men representing the great force for this cause have not disclosed openly upon the floor the true purpose behind the enactment of this work"

and asserting that they "undoubtedly want to do something to transcend the beaten paths and bounds." He spoke at length of the ambition of the cities to spread out, to control their police departments and to obtain relief from State laws.

A number of delegates, including M. B. Ford of Maryville, obtained the impression that Munger was impugning the motives of members of the committee, so Ford, though not a member of the committee, pro-

 "If I felt as that man feels, I would leave the convention," Ford said. "I have listened with amazement to his speech charging to the members of this committee a sin-

# PIONEER BROADCASTER PRAISES K S D WORK

Vice-President Davis of Westinghouse Co. Has Little Faith in Commercial Future of Radio.

The radio is essentially a device for amusement and information of the people, and of no great commercial value, said H. P. Davis, vice president of the Westinghouse Electric and Manufacturing Co. and one of the pioneers in broadcasting development in America, when in St. Louis Thursday.

"Davis was in charge of the establishment and management of the Westinghouse broadcasting station, K S D, in Pittsburgh, the pioneer station in introducing nightly programs.

"Enthusiastic comment was made by Davis on the Post-Dispatch station, K S D. He spoke of its power and clarity, saying he often had heard its program on the loud speaker at the Pittsburgh stations. He especially stressed the efficient announcing of station K S D.

"I do not believe there is any commercial future for the radio," Davis said, "except in the manufacture and sale of the necessary instruments. The radio is for the transmission of news, which you want to tell the world about, and not for private and confidential communication. Another difficulty to be met with in personal transmission is the conflict of the wave lengths.

"I realize that several inventors are experimenting with instruments, which with their hope to make radio messages secret. But if one were discovered, it probably would not be long before some other ingenious person found a means by which the secret message could be intercepted.

# ITALY MOURNS PASSING OF EX-PREMIER SONNINO

Baron Credited With Having Laid Foundation for Nation's Revenue Stability.

ROME, Nov. 24.—Italy mourned today the passing of Baron Sonnino, twice her Premier and Foreign Minister in the World War. Death came last night after an apoplectic stroke earlier in the day.

News that the Baron had been stricken came as a surprise, for only a few days ago he was seen on the streets apparently in the best of health. Word of his illness brought anxious inquiries from many State notables, including King Victor Emmanuel.

Baron Sonnino, "the silent statesman of Italy," disliked to talk but could be fluent in five languages. He was Prime Minister of Italy in 1906 and again in 1919, he was Foreign Minister in 1919, he was Minister for Foreign Affairs. He also served as Minister of Finance, as Minister of the Interior and as a member of Parliament.

He took to the Paris peace conference the reputation of "the first financier of Europe, the man who had probed the economic life of the world to the core."

"I do not shrink, I do not glitter," he said on one occasion in the Chamber of Deputies. "I leave that sort of thing to my political opponents. I am satisfied if I can reveal an occasional gleam of common sense." At another time, addressing his indifferent colleagues, he said: "I propose to put a little knowledge of the state of the nation's revenue into your heads, whether you feel interested or not."

It seems to me, old as I am, that if France were to be destroyed I would be proud to be among the "bad Frenchmen." God is too high and France is too far.

America and England.  
"America and England have come to the front together. How many

stories I could tell you to prove it! But sometimes I think England is too near and America is too far.  
"Come and visit our country as I visit yours; come and see our people and, if you want, secret information upon our military forces. During the war, at certain times, when I was in Great Britain I did not like certain officers in London to see the real condition of their soldiers because I complained. We do the same thing. Do not come publicly to call us bad names. The people that you knew a century and a half ago are the same people. They

are stronger because France has established democracy very perfectly. "You have the minds you have the will which make the greatest men. When a man dies you write on his tombstone that he was a great success in the buttonhole business; but if he is a poor fellow and a good citizen you will take care and have it written down on the stone. I hope there will never be a grave of the American people. If there is, the French will be buried on the same day. You have done too much to do too little, and I want us to live together to the end."

## AMERICAN HISTORY FOR AMERICAN CHILDREN

The Mutual Misunderstanding Between England and the Colonies Was Really the Fault of the Ocean.

The Colonists Worked in Silent Forests.  
By HENDRIK VAN LOON,  
Author of "The Story of Mankind."

DAVID HARUM, the great philosopher of the country-side, used to say that "flees were good for a dog because they kept him from worrying about being a dog." Many politicians of the eighteenth century living in and near the town of London, England, shared this opinion in regard to the American colonists. They did not entirely approve of the British attempt to rule the American continent of all French competitors. "There ought to be a French menace in America," they argued, "which would prevent the colonists from feeling too certain about their immediate safety. It would keep them obedient to the mother country because they needed the protection of the British armies and navies. Once take away the threat of a French invasion and there is an end to all obedience."

The events of the 50 years following upon the expulsion of the French seemed to put those pessimists in the right. Whatever advances the colonists had had against the mother country, they had been careful to hide them from their British masters lest they be deprived of Their Excellencies' good will and Their Excellencies' restrained soldiers. But once this danger had been removed the war began. And a grand and glorious game of mutual misunderstanding was inaugurated which lasted 50 years and ended only when the colonies had been recognized as an independent commonwealth.

In this contest there was a great deal of right and equally a great deal of wrong on both sides. On the side of the British authorities there was very little violence, but much stupidity. On the part of the colonists there was a deep resentment of endless petty pickicks combined with a general refusal to assume certain burdens which had been carried during the years of border warfare.

It was really all the fault of the ocean. That vast track of water performs miracles. Perfectly good people with the humblest of humbly would cross the ocean and would enter the American wilderness when—behold!—they were suddenly changed into two independent citizens who insisted upon their own rights and who knew how to defend their newly acquired independence. Living by themselves, amidst the silent forests of the west, the equal of all their neighbors, the newcomers soon lost the habit of touching their cap to their "betters" and resented the claims of the British officials who never forgot that they were dealing with "colonials." To make matters worse, the home country was then ruled by a stout party with a somewhat guttural accent who treated his own ministers as mere "servants." From such a man little good was to be expected. Soon the fat was in the fire and colonies and motherland were in open conflict.

To Be Continued Tomorrow.

## LIFE TERM FOR KILLING MOONSHINING PARTNER

Serbian of Alton Convicted of Murder of Greek, Who Was Found Dead in Weeds.

Charles Lucor, a Serbian of Alton, Ill., late yesterday was found guilty of the murder of Adam Coutsogeorge, a Greek of Alton, and was sentenced to a life term in the penitentiary by a Circuit Court Jury at Edwardsville.

Witnesses presented by the prosecution contended that Lucor and Coutsogeorge formerly were partners in the moonshine business, operating a still somewhere near Alton. It was testified that Lucor was arrested several times, charged with violating prohibition laws, and spent \$4000 in defending these charges.

Witnesses said that Lucor thought Coutsogeorge was responsible for his arrests and had threatened to "get him."

The body of Coutsogeorge was found in a clump of weeds near the Brighton road, north of Alton, Sept. 1. The head was badly beaten and there were cuts about the right ear. Later a hammer and knife were found near the body. These subsequently were identified as belonging to Lucor. The latter contended they were placed near the body by enemies in an effort to "frame" him.

Lucor offered an alibi. He attempted to prove that he was at home the entire night before the finding of the body.

The jury, which reached a verdict after several hours' deliberation, at one time stood six to six for imposition of the death sentence. It was reported in Edwardsville today.

## \$100 PUT IN 'MONEY' MACHINE GONE; \$0 IS OWNER OF DEVICE

Atlanta Police Looking for Man Who Excused Himself "for the Moment."

By the Associated Press.  
ATLANTA, Ga., Nov. 24.—On complaint of M. Ellis of Macon that he was "fleeced" out of \$100 in connection with a fake money-making machine, Atlanta police are searching for a man who represented himself as L. Davis and who, Ellis says, got the money.

According to police, Ellis agreed to place \$100, his life's savings, inside the instrument, which made a strong buzzing sound. When the buzzing stopped, he was told, the process of reproduction would be completed and his original \$100 and \$100 in crisp new bills would be ready. Ellis then excused himself "for the moment" and Ellis, upon examining the machine, found his money had vanished.

## DYER TO MAKE TRIP TO CHINA

St. Louis Congressman Will Study Effects of Trade Act.

WASHINGTON, Nov. 23.—Representative L. C. Dyer of St. Louis said goodbye to his colleagues yesterday preparatory to leaving tonight for Vancouver, whence he will sail for China Nov. 30 on the steamer Empress of Asia. Mrs. Dyer will accompany him. Dyer said that he was going to the Orient to make a study of the effects of the China trade act, of which he is the author, and to gather suggestions for possible beneficial changes in the law. He said he would be gone about two months.

"I feel that it is better to go at this time," explained Dyer, "when the Republicans have a large majority in Congress, rather than wait till after March 4, when my vote might be needed."

Dyer conferred yesterday with the President, who, he said, was keenly interested in the trade act. The purpose of the law is to stimulate American trade with the Orient.

\$5,000,000 in Year for M. E. Missions

## MAYOR ORDERS K. K. K. DRIVEN FROM NEW YORK

Hyman Suggests "a Little Police Attention" for Baptist Minister and Evangelist.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Nov. 24.—Mayor Hyman yesterday telegraphed Police Commissioner Enright instructions to drive the Ku Klux Klan out of this city and suggested "a little police attention" for the Rev. Dr. John Poach Straton and the Rev. Oscar Haywood, pastor and evangelist, respectively, of Calvary Baptist Church, in which Klan membership circulars were distributed.

The Mayor's telegram follows: "The dispatches from New York this morning indicate the Ku Klux Klan is getting busy in our city. If this is so, I desire you to treat this group of racial and religious haters as you would the reds and bomb-throwers. Drive them out of our city as rapidly as you discover them. Assign your most expert detectives to this work and as you secure the names of any of the organizers or members of this secret organization be sure they are given to the press so the citizens may know who are supporting the vicious and destructive secret society. It is unfortunate that the Federal Government did not take a more firm position in this matter when the Governor of Louisiana asked to His Excellency, President Harding, for Federal action.

"The Ku Klux Klan or any secret society of similar character and purpose is a menace to our city, State and nation. The people of the city of New York will not tolerate their existence within the confines of our metropolis. Do not leave a stone unturned to ferret out those despicable, disloyal persons who are attempting to organize a society, the aims and purposes of which are of such a character that were they to prevail the foundation of our country would be destroyed.

"I noticed in yesterday's morning's New York World that the Rev. Dr. John Poach Straton and the Rev. Oscar Haywood of Calvary Baptist Church are alleged to be connected in some way with this secret organization. If this is so, a little police attention along this line would not be out of order.

"Go after the Ku Klux Klan and do not let them get a foothold in New York City. It is to be regretted that men of the cloth, regardless of their denomination, would have anything to do with an organization whose purpose is as vile as that of the Ku Klux Klan. These people can be dealt with under the conspiracy provision of the penal law of the State of New York.

"JOHN F. HYMAN, Mayor." The Rev. Mr. Haywood admitted yesterday he was a national lecturer for the Klan. After the disclosure of the distribution of Klan circulars in the church, Dr. Straton denied he had any knowledge of any such activity and announced his opposition to the secret organization. The Rev. Mr. Haywood declined to discuss Dr. Straton's attitude, but said his appointment as general evangelist was co-incidental with his membership and before Dr. Straton had any connection with Calvary Baptist Church.

Outlines Klan Principles. "The Knights of the Ku Klux Klan is a secret, fraternal, patriotic, benevolent order devoted to the cultivation of race pride, racial purity, religious liberty, patriotism and social ideals of Protestant Christianity, its ultimate objective being to establish and maintain the solidarity and supremacy of the Gentile, white Protestant American in America," said the Rev. Mr. Haywood.

"It is an American organization and excludes certain groups of American citizens, not because of any antagonism, but because of the desire to bring together those elements that will be congenial respecting the development of American ideals. It does not exclude the negro because it hates the negro. It does not exclude the Catholic because of any antipathy for the Catholic, nor the Jew because of any race feeling, nor does it exclude the foreign born because of any prejudice.

"It is, therefore, not anti-Catholic."

It is not anti-Jew; it is not anti-negro; it is not anti-alien. Respecting the negro the Klan would not deny him any privilege he would enjoy under the Constitution. It would not raise a hand against any school or institution that the hand of philanthropy has built for him.

### PAROLES FOR MEN CONVICTED HERE OF ROBBERY CHARGES

George McDonald and Frank Kalala Among Five Men Released From State Prison.

Special to the Post-Dispatch.  
JEFFERSON CITY, Nov. 24.—Gov. Hyde yesterday paroled five men, four of them on the unanimous recommendation of the five members of the State Board of Pardons and Paroles, the other on recommendation of three members of the board. J. Kelly Pool, Parole Commissioner, and Al G. Blakely, Commissioner of Farms, the two Democratic members, did not sign the recommendation for the man, Robert King, who came to the penitentiary in November, 1917, to serve 15 years for attack on a 14-year-old girl. King had a good prison record and clemency toward him was recommended by the Circuit Judge and the Prosecuting Attorney of Holt County. The others released were George McDonald, serving a five-year sentence from St. Louis from January, 1921, for robbery; Frank Kalala, serving a four-year sentence from St. Louis from January, 1922, for grand larceny; Walter Whittem, serving eight years for highway robbery from August, 1919, from St. Louis County; Elmer Lackey, serving 12 years from February, 1916, for burglary and larceny.

### CONSULATE QUARTERS FOR RENT

Newcastle Citizens Fear America Does Not Intend to Reopen Offices.

LONDON, Nov. 24.—By order of the State Department at Washington an effort is being made to sell the lease of the former consulate building at Newcastle. Business men in Newcastle fear the United States does not intend to reopen the American consulate in that city, even though an amicable settlement be reached over the recent cancellation of the exequaturs of the two American consular officers at Newcastle. Britain's new compromise proposals, it is understood, have not met with full American acceptance. Another communication from the British Government probably will be sent to Washington shortly.

### Liquor Bond Ruling Changed.

WASHINGTON, Nov. 24.—Druggists and other persons permitted to handle intoxicating liquors and alcohol no longer will be required to furnish bonds containing a provision requiring them to forfeit 25 per cent of the amount covered by the surety in case they violate the prohibition law. Under new regulations issued by Commissioner Blair of the Internal Revenue Bureau, an alternative form of bond is authorized. Druggists, distillers and other persons recently protested against the 25 per cent provision, contending the requirement had resulted in houses.

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.  
Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.  
Have you a bad taste, coated tongue, poor appetite, a lazy, don't care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.  
Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

**WOMEN ADVISED ON SAFE INVESTMENTS**  
Banker Says They Buy Hat or Fur With Greater Care Than They Handle Their Money.

Women give more careful thought and consideration to the purchase of a hat or fur than they do to the investment of their money. That has been the observation of John P. Sweeney, bond officer of the Mississippi Valley Trust Co., and it was the foundation upon which he based an address yesterday before the St. Louis Women's Club. More than 250 club members heard him discussing "Investments for Women."  
Sweeney said that women lost money because they failed to acquaint themselves with easy guides to safe investments. He added that there was little excuse for losing money today. There are numerous guides, sound, safe and sane guides, to the proper investment of money, he said.  
**Press an Excellent Guide.**  
"Despite this," he continued, "there are women who will entrust their money to some safe gentleman without even investigating the security he offers. They will not even read the newspapers and the press today is an excellent guide to sound investments."  
"In this connection let me call to your attention a series of advertisements which ran in the Post-Dispatch recently on Wednesday evenings. They outlined sound and safe investments and warned against investing money without a full investigation of the security."  
"The advertisements were well written, the language of them was excellent, and too plain to admit of misunderstanding. I am not exploiting the Post-Dispatch, but I just want to show the valuable assistance that the public receives from the press."  
"Newspapers should be congratulated on their stand against receiving advertisements from 'get-rich-quick' schemes. It takes courage to refuse business when it is revenue."  
**Woman's Letter Read.**  
Sweeney then read an article by Sophie Irene Loeb, which appeared recently on the Women's Pages of the Post-Dispatch. It outlined a letter from a woman who told of how she had entrusted her money to a supposed friend, who later informed her that, through no fault of his, the money had been lost.  
"There is no excuse for this sort of thing," Sweeney continued. "In considering the investment of money, women should first seek a reliable bond house. They should remember the two fundamentals of a sound investment, namely, safety of the principal and a regular return. Whether the securities are easily marketed or sold in of secondary consideration."  
"There are numerous kinds of securities in which investments may be made profitably. I have six in mind, and their soundness is in the order in which I shall name them."  
"First, there are Liberty Bonds, on which you cannot make a mistake. Second, I would place municipal bonds where the city or county is in back of them. Population of the district is quite a factor, inasmuch as interest and principal is paid out of taxes."  
**Other Good Investments.**  
"High class railroad bonds and public utility bonds, real estate loans, Foreign Government bonds and the preferred stocks of the better corporations, are all good investments."  
"There are two principal schemes about which I warn women. Beware the 'blind pool scheme' and the 'certificate of rights.' The first named is put over by a group of men who purport to form a company and pool money on certain stocks. The money which you pay in is turned over in part to the investors before you as 'earnings' on the investment. Finally the pyramid mounts so high that it collapses of its own weight and losses and penitentiary sentences result."  
"The certificate of rights permits you, for a small sum, to buy the privilege of buying stock. The certificate is required to have a value. Beware of it. These two schemes are most used by the unscrupulous element."  
Sweeney said that women should take more interest in the financial pages.  
**Should Be No Losses.**  
"There should be no financial losses," he said. "The newspapers here carry from one to three and four financial pages daily. They are edited by men who know economics and finance. There is an unusual amount of care taken in the copy which goes into these pages as well as the advertisements. They tell readers the story of investments carefully and truthfully."  
"Women should take an interest in financial matters to prepare for the day when they must handle their own estates. It is a real pleasure to meet a woman who knows something of investments and what she wants to do with her money. However, it is pathetic, on the other hand, to meet a woman who has inherited money and does not know the first thing about investing it. If she is fortunate she places her money in sound investments through men who are honorable and trustworthy. But too often she is the victim of the old story of the suave swindler."  
"This can be averted by giving as much time and attention to your investments as you would to the purchase of a hat, or gown or fur. Do not be timid. Visit often the agents through whom you have invested your money and keep a watch upon it. In this way you can escape the pitfall of purchasing worthless stock."

President Suggests Legislation to Extend Its Authority.

WASHINGTON, Nov. 24.—Further legislation to broaden the authority of the Federal Coal Commission in its investigation of the coal industry was suggested by President Harding at a conference with Chairman Borah of the Senate Labor Committee and Chairman Winslow of the House Commerce Committee.  
On the recommendation of members of the commission the President is understood to have urged that the law authorizing that body be so amended that those who refused to supply information shall be subject to heavy penalties.  
**Lamar Farmer Killed in Runaway.**  
LAMAR, Mo., Nov. 24.—John Webb, 65 years old, a retired farmer of Lamar, was killed in a runaway yesterday morning. He was driving a pair of mules to his farm when the wagon tongue came down, frightening them. They whirled about and Webb was thrown to the ground. His neck was broken.

## COCKROACHES GETS YEAR IN JAIL FOR SELLING WHISKY

Saloon Keeper Given Most Severe Sentence of Judge Faris in Such Cases.

Joseph Rolfo, proprietor of a saloon at 19 South Twentieth street, was sentenced to serve a year in jail and was fined \$500 by Federal Judge Faris yesterday, following his conviction by a jury of violating the Volstead act by selling two drinks of whisky to Federal prohibition agents June 5, last. The sentence is the most severe yet imposed by Judge Faris in such cases.

One of the counts in the information against Rolfo charged the maintenance of a nuisance and he was found guilty on this. Judge Faris imposed the maximum punishment for this offense, a year in jail, but made the sentence to run concurrently with the two six months terms imposed on the sale counts. A suit to enjoin the use of the building, where the barroom is situated, for one year, under the nuisance clause is pending before Judge Faris.

Rolfo testified he was in Illinois on the day he was alleged by the prohibition agents to have sold them drinks. This testimony was corroborated by one witness.

Judge Faris, in sentencing him, declared he did not believe his plea and the jury had done right in disbelieving it. "It occurs to the court that if you had been in Illinois on that date you could have produced 50 witnesses to prove it," the judge said.

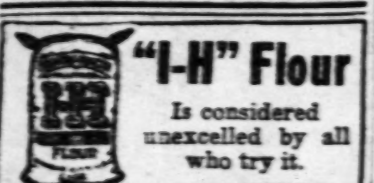

Counsel for Rolfo announced the case would be appealed. They asked that his supercedas bond be set at \$1500, and counsel for the Government asked for a bond of \$2500. Judge Faris said "Rolfo will have to get out of the country to evade the Government if he forfeits this, which reminds me of the old couplet: 'Two patriots we, for, be it understood, we left our country for our country's good.' Rolfo may be a patriot."

Today Joseph Rapota, who preceded Rolfo in ownership of the saloon, pleaded guilty to having sold two drinks of whisky to prohibition enforcement agents last April, before he transferred the saloon to Rolfo, and was fined \$500 and sentenced to four months in jail. Execution was stayed for 10 days to permit Rapota to go to Belleville, where he is now a miner, and arrange his affairs.

## ARRESTED FOR ROBBERY SOON AFTER LEAVING WORKHOUSE

Negro Charged With Trying to Steal Clothing After Shattering Market Street Window.

Fred Alton, 21 years old, of 1733 Lucas avenue, a negro, was arrested at Fifteenth and Pine streets at 3:30 a. m. today, charged with breaking the front display window in the store

of Anthony J. Symon, 1509 Market street, with a brick, and attempting to steal clothing valued at \$150 from the window.

Patrolman Treiman reported he found Alton at the window and arrested him. The negro broke away, ran to Pine street and started east, the policeman meanwhile firing his revolver to frighten him. When he saw two other policemen at Four-

teenth and Pine streets, Alton ran back to the west and Treiman again captured him. Alton was released from the workhouse at 9 a. m. yesterday, after serving a 14-day sentence for trespass.

For instance leather has advanced 20% since I bought the materials for the shoes I am offering you now.

Many stores have raised their prices in sympathy. Mine are not raised because I stamp a fair and square retail price on the soles of my shoes at the factory. This price is based on the cost of materials actually used and cannot be raised later on.

I invite you to visit my stores and form your own opinion. I will not ask or expect you to buy unless you are convinced that you are getting more for your money than you can get elsewhere.

# Is 1923 To Be A "Hell-Raiser's Year?"

Discontent has swept the country; there is a "restless searching of the electorate for some new way out of its troubles." "It will be a 'Hell-Raiser's Year.'"

In these words, independent Kansas City, Chicago and New York editors in turn explain what happened on November 7th, and they express what seems to be the prevailing sentiment in second thought editorial interpretation of the election.

There is a very interesting news-feature in THE LITERARY DIGEST this week, November 25th, which analyzes the cause for Republican defeat and what the Democrats really gained. "There has been a general smashing of pronounced reactionaries," gleefully reports a labor daily (Minnesota Star), while the Newark News remarks that the radicals bearing a party badge are in the ascendant, armed for assault for party control two years hence. If the forecast of conditions is accurate the programs of reactionary groups in Congress as shown in this article will be enlightening to the public at this time.

Other news-features in THE DIGEST this week which are unusually timely are:

## Wall Street News and Comment —SPECIAL DAILY—

By a Special Correspondent of the Post-Dispatch.

NEW YORK, Nov. 24.—Today's stock market pursued a very uneven course. The market was quite strong through the forenoon, grew very quiet about midday and in the last hour sagged off again, but at the close prices were pretty much where they stood Thursday night.

At one stage in the forenoon short covering was quite lively. Some of the motor, equipment and oil stocks were selling 2 to 3 points above the close of Wednesday and Thursday and the same was true in a number of the rails. There was strength in the sugar stock market.

The most interesting contribution in the way of trade news was the quarterly statements of the four leading porphyry copper companies. These showed that a turn for the better came in the copper trade during the three months period ending Sept. 30. Utah Copper more than doubled its income as compared with the quarter preceding. Ray Consolidated, a subsidiary of the Standard Oil Co., reported a 100 per cent increase in income for the same period.

The afternoon stock market was the duldest Wall Street has seen in some time.

Standard Oil Co. completed a decline which carried it back over the entire 60 points of the rise preceding the big stock dividend. It was a disastrous awakening on the part of the speculators who were carried away by the "melon cutting" excitement of a month and a half ago, to the fact that the Standard's distribution in effect meant nothing more than exchanging two pieces of paper for one.

### The Bond Market.

A very dull market with prices a trifle higher characterized today's trading in bonds. The principal strength was shown in the high grade issues and the principal weakness in speculative bonds. Some large blocks of prime bonds have changed hands this week over the counter without appreciable effect on quotations. Sales of this character are reported to have included a \$1,000,000 in Delaware and Hudson refunding 4s, a \$1,000,000 in Lake Shore 4s of 1928 and \$500,000 in Chicago, Burlington and Quincy general mortgage 4s. The fact that sales in such large volume were made without concessions on the part of either buyer or seller illustrates the confidence of opinion as to the future of the market. Among issues to sell higher today were Union Pacific secured 5s of 1924. At today's price of 102 the yield is about 4.85 per cent. Lake Shore 5s among term bonds also went higher. Here the basis was 4 1/2 per cent. On the contrary Chicago and Northwestern 3 1/2s went lower. Rock Island general 4s gained a point and St. Louis 5s and western consolidated 4s more than a point. The latter as a short term issue selling to give a maturity yield of over 7 per cent. New Orleans, Texas & Mexico income, Missouri, Kansas & Texas adjustments and St. Louis Iron Mountain & Southern 4s were other railroad bonds to gain ground. Seaboard Air Line 4s and the Erie and St. Paul issues generally went lower. Buffalo, Rock & Pittsburgh 4 1/2s, among preferreds, declined. They sold today nearly six points below the price at which a large block was offered only a little more than a month ago. Activity in Midwest 5 1/2s featured the industrial list. Anaconda & Pfg. is listed at 104. American Steel & Wire advanced. The foreign list was very irregular. Liberty's were irregular. They opened a trifle higher and then dropped back.

### NOTES.

In connection with the continued strength today in Associated Dry-goods, attention was drawn to the declaration of a 1 1/2 per cent first dividend by Lord & Taylor Co., of whose three classes of stock Dry-goods has holdings.

London cables today showed that England expects defeat of the ship subsidy bill, and that shipping shares there rose from 1 1/2 to 3 points Thursday in consequence. Standard Oil of New Jersey has reduced tank wagon price on gasoline 1 cent a gallon to 19c in North and South Carolina.

## NORTH AMERICAN CO. HAS \$10,248,633 FOR DIVIDENDS

Special to the Post-Dispatch.

NEW YORK, Nov. 24.—The North American Co. and subsidiary companies report consolidated earnings and expenses for the 12 months ending Oct. 31 last, as follows, in comparison with the corresponding previous 12 months:

	1922	1921
Gross earnings	\$30,000,000	\$28,000,000
Operating expenses	20,000,000	18,000,000
Net income	10,000,000	10,000,000
Dividend	2,000,000	2,000,000
Retained earnings	8,000,000	8,000,000

Figures for 1922 include income of the Cleveland Electric Illuminating Co. from April 1, 1922.

The balance for dividends is sufficient to pay the regular stock dividend for the 12 months and leave a balance equal to \$22.75 a share on the 400,000 shares of stock outstanding as compared with \$22.47 a share earned of \$23.95 outstanding common shares for the 12 months ended Sept. 30 last. These figures compare with \$19.35 a share earned in the 1921 calendar year and the \$19.64 shares outstanding on Dec. 31, 1921.

Directors of the North American Co. are scheduled to meet today for action on dividends.

### RAILROAD DEVELOPMENT TO COST \$5,000,000

Cotton Belt Directors Approve Program That Includes \$3,000,000 for New Equipment.

A development program of \$5,000,000 for the St. Louis Southwestern Railway Co. (Cotton Belt), including ship and trackage improvements and expenditure of \$1,000,000 for new equipment, was announced in a message to the local offices last night from President Daniel Upthegrove, following a directors' meeting in New York.

The directors declared a dividend of 2 1/2 per cent on preferred stock for the last six months of 1923, this being the first preferred stock dividend since April, 1914, when one-half of one per cent was declared.

**Operating on Cash Basis.**  
Net corporate income of the road for 1923 was estimated at \$2,500,000. The road is reported to have been operating on a cash basis since released from Government control following the war. Dividends of 4 1/2 per cent were paid in 1917 and 1921 on preferred stock and then ceased from 1914 to this year.

Business improvement and agricultural development in the Southwest are given as the chief reasons for increasing the rolling stock of the road.

Negotiations are in progress for the purchase of 500 box cars and 500 automobile cars. The road this week bought 200 convertible ballast and coal cars for approximately \$450,000.

**Conversion to Oil Burners.**  
Other improvements in the program announced by Upthegrove include conversion of locomotives in Texas and Arkansas into oil burners at a cost of approximately \$500,000; new shop equipment at Pine Bluff, Ark., and Tyler, Tex.; heavier steel on about 100 miles of the track; and rebalancing of the line from Illinois, Mo., to Texarkana, Ark.

The company plans to obtain fuel oil for its locomotives from the recently developed field near Camden, Ark. Coal will be used for lo-

comotives on the northern divisions of the road, which is 1775 miles in length.

Upthegrove became president of the road Oct. 12, last, after the death of President J. M. Herbert. He became connected with the road 25 years ago as legal representative at Greenville, Tex., at a salary of \$25 a month.

approach of the winter season, one of the most popular of home-made mince meats is mince meat. There are many ways of preparing it, and it is a very fine product. Here are a few recipes for you to try.

**Apple-Cider Mince.**  
Take four pounds of beef, two pounds of pork, and one pound of suet. Cut into small pieces and chop fine. Add one cup of apple cider, one cup of vinegar, and one cup of water. him three children. So deeply did he love her that when on one occasion they quarreled, he became seriously ill and did not recover until Louise came to his bedside.

These two letters were written when Louis had to make a trip to Fontainebleau and Louise could not accompany him because of an injury she had sustained in an accident.

From Louise: "Mon dieu! How inconvenient I find it to love so charming a Prince. I have not a moment's rest from the thousand things that overflow my heart. In truth, I often wish you all for being so amiable. Pity then the heart which you have made miserable. Excuse me for all the trouble I give you in return for your love. I am absent, sad, importunate and, I may add, jealous."

Louis' reply: "My heart has reduced me, my child, to a sad state of mind. I ask you to share my

**COATS**—\$300 apiece. Take a few yards of silk and a yard of gold lace and two or three boxes of beads, call it a dress, put it in the window and mark it \$300 and somebody will walk in and buy it before it has been there 24 hours.

That is the city.

**Hats**, \$60 apiece—just a scrap of velvet with a fancy rim and something drooping from the side.

**Veils**—there's a cheap one for \$7. It will last you about three weeks if you don't wear earrings that catch in it, and if you think about your veil every time you want to turn your head and are careful to fold it just so when you take it off.

**Shoes**, \$12 a pair—long, slim, pointed ones that make your toes look like a vulture's claw, and nice, chubby, little short-vamped ones that give you a foot like a baby's—only \$12 a pair and warranted to last three months if you don't let them out in the wet.

**Diamonds and pearls and rubies and emeralds**—real ones if you can afford them; imitation if that's the best you can do, but diamonds and pearls of some sort, anyhow.

**Gold shoe buckles and paste shoe buckles, dangle-dangles for earrings, to hang from your sleeves and to swish from your sash.**

**What Time Do They Get?**

Saffron-colored rouge—that's the latest thing. It makes you look like a Hottentot on a holiday, but what's the odds so long as you are in the fashion?

Limousines, roadsters, touring cars, taxis—where does all the money come from?

Who earns it and what do they do to get it?

The city—it does queer things to you.

Either it stimulates you and makes you ambitious and determined and vain and proud, and just a little heartless, or it crushes your heart out and makes you want to go somewhere, and put something over your head, and not speak and not hear and not see and not even think—for awhile.

So rich, so gay, so full of anxious hurry! How do they sleep at night—these people who walk so far from the curb to the shop? What time do they get for love or for friendship?

Is there any little quiet hour for the dim church—and memory?

Poems—do they ever read these things, those who hurry up and down so fast?

I saw a man selling violets yesterday, in a quiet cross street, and two girls stopped to buy a bunch apiece—they said they were "awful."

Poor things! I wonder if they really loved the fragrant flowers, or they just bought them because they thought it would make them look rich to wear them.

And then all at once I found myself in a noisy street, ugly and dirty and crowded and very disagreeable.

**No Imitation Housekeeping.**

But there was a little grocery store on the corner, a rather unique, flourishing little place, and I went in to see what they sold there and what they bought. In came two girls, each in an imitation fur coat. One wore im-

Notes

**PARIS**—To fit the new, close-fitting coiffure of today there is the new close-fitting hat. Whether the chapeau is very wide or very small, it is now drawn on from the back so that the knot at the nape of the neck goes up into the crown of the hat. The hat is then pulled low over the eyes and worn without pins.

Yes, they were wearing the saffron rouge, too—a good deal of it.

What on earth did these gay birds of paradise want in a plain little shop like that?

And one ordered a pound of a new shortening and the other took an old-fashioned kind of "shortening," and one bought pork chops and the other veal, and they ordered point-toes and onions—and I wanted to hug them.

No imitation about their house-keeping, anyhow. I was crazy to ask the new-shortening girl whether she could make doughnuts or apple pie and where she learned to make it, and who it was who would be glad to see it on the table when he came home to the little flat from work.

I wish she had asked me home to dinner with her. I would have enjoyed the pork chops and the boiled onions and whatever the shortening went into, better than I did the hotel dinner with waiters and an orchestra and all the fuss and feathers.

The next time the city begins to get on my nerves I am going to walk over into the plain streets, where the real, sure-enough people work and hope and love, and economize and sacrifice, and live and love like human beings.

## THE RHYMING OPTIMIST By Aline Michaelis Too Many Trimmings.

O H, hear the tale of Blidd Brown, who, speaking, tried his best to keep the tears from rolling down upon his Sunday vest. "I wanted plain roast duck one day, the kind my mother made, and so into a fine cafe quite hopefully I strayed. It was a splendid place indeed, where jazz-time rent the air and I looked forward to the feed, a meal that I'd call square. The minutes slowly sauntered by, my hunger grew and grew; I chortled: 'When that duck draws nigh, what damage I shall do.' And when my waiter came again, my spirits rose, 'date, for lo,' he brought two husky men with trays of silver plate. They came with knives and forks and glass, with platters large and small until I sighed: 'I know, alas, I'll never eat it!' Here Blidd paused to rend his beard, then sobbed with visage pale: 'Ah, when that duck at last appeared, it looked more like a quail! All mounted on a silver pan and hedged in with shrubbery green, that bird was built upon the plan of some half-grown sardine. So when I left that festive spot, ill-tempered, sullen, sore, of trimmings I had had a lot, but there was nothing more!' It's not alone in fine cafes that trimmings cause men pain, we find them scattered through our days when seeking something plain.

## MAXIMS OF A MODERN MAID

By Marguerite Mooers Marshall

IT'S easy enough for any woman to forbid a man to go further. The catch is that sometimes he thinks she means it!

One can't help wondering how much of the fury against the flapper is due to the fact that she won't stick to her own generation of men, but prefers those belonging to the generation of her female critics—even belonging legally, to the critics!

A woman might just as well send out announcement cards of her conjugal unhappiness as to go around telling the world that, in all the years she and Henry have lived together, they've never had a word!

"A wife," said the Constitutional Cynic, "is like most of this booting stuff; easy enough to get, if you have the price—but the Lord only knows WHAT you're getting!"

The reason for most of the collisions between men and women on the so-called sea-of-life is that the sexes steer by different compasses; on a man's, the magnetic north is marked "business," and on a woman's "love."

If legs were made for seeing, then short skirts are their own excuse for being—as Emerson so nearly said.

There is this difference between the old-fashioned and the modern woman. Whether to the latter's credit or the reverse, her plan of life does not include moving the rocking-chair to the exact center of the rug and symmetrically aligning the magazines on the library table a dozen times a day.

The trouble with high principles is that they usually run all to height and not enough to breadth.
